He has undoubtedly intended, in the event of the failure of his revolutionary schemes in im Europe, to come back to this country and have himself elected President. [Correspondence of the London Times.] CONSTANTINOPLE, June 25. LOSSES IN THE WAR .- From an authority which there is every reason to trust, I learn that the Turkish Empire has lost 130,000 men since the declaration of war in 1853. The French have, since their arrival in the East, lost 70 000, dead or invalided; while the British have suffered to the extent of 28,000. Although Austria has not been at war, yet her occupation of the Provinces and the formation of immense camps, which are always more or less unbealthy, have caused her no slight diminution of force. But, putting aside the neutral powers, the allies-French, British and Turks-appear to have lost about 230,000 men. The loss of the Russians was stated by Lord Lansdown to be also 280,000, but there is reason to believe that this calculation is below the truth. Taking into account the mortality on board the ships of war and transports, and among the laborers of different kinds attached to the armies, of whom there are plied with all the leading styles of Goods, some thousands in the Crimes, it may be assumed. It is, we believe, an acknowledged fact that our Stock has that from 500,000 to 600,000 men have perished or become invalided since the commencement of the war. We have heard of several instances recently of gentlemen who have been waited upon and coaxed and cajoled by the inquisitorial comnittee of the anti-American party, who have een greatly strengthened thereby in their Americanism. While there is now and then one who suffers himself to be bamboozled by these emissaries of Andrew Johnson Democracy, for the credit of humanity, be it said that a large majority of them scorn such attempts to whip them in, and regard them as reflections upon their intelligence and capacity to choose for themselves. I introduced the Schledam Aromatic Schnapps for the purpose of supplying the medical faculty and the whole community with a pure medicinal spirit, which might be prescribed with confidence in all cases where stimulants were required, without producing the fearful consequences which invariably result from using adulterated liquor. In order to render assurance doubly sure, I had the art analyzed by chemists of world-wide celebrity, and submitted it for experiment test to thousands of distinguished medical practitioners. The responses from these sources were of the most unequivocal and satisfactory character.— It is now before the public, surrounded with these guaranees, and bearing these unimpeachable endorsements, and I call upon the community to protect themselves and me— their own health and my reputation—by frowning down and repudiating the piratical speculators who are peddling their foul commodities under cover of my trade mark. No article had ever been imported from Holland into this market, un der the name of Schnapps, previous to the appearance of Wolfe's Schiedam Aromatic Schnappa, in this city.

The first importation being made into this city in the year eighteen hundred and forty-eight, which can be seen by the Custom House books, I deposited my label as a trade mark in the U. S. District Court of the Southern District of New York, in the year eighteen hundred and fifty-one, and have the certificate in my possession of that date. The great demand which has thus been created for the genuine arti ele, has set the whole hive of counterfeiters in motion, and the duty I owe to my customers and friends, and the public, compels me from time to time to put them on their guard against imposition. I have established a depot at 25 Sooth Front street, Philadelphia, where the Western merchants can draw their supply at New York prices.

It would hardly do for any one to have the temerity powa-days to question the excellence of Dr. Hoofland's German Bitters, which are prepared by Dr. C. M. Juckson. In cases of dyspepsia, liver complant, and derangement of the digestive organs, their many virtues have long since been made plainly apparent. They purge from the system the morbid humors which retard their natural functions, and bring puleness to the check and suffering to the brow. They banish those clogs upon happiness, and restore the system to high health. See advertisement.

Of the United States. A N advertisement of Mr. UDOLPHO WOLPE, lately pub-I hished, as I suppose, intended for the protection of his Schiedam Schnapps against counterfeiters, has come under my observation, and being engaged in the manufacture of Schledam Schnapps, were I to let it pass without notice through this medium, I might be considered among those he describates "Figures and Venders of Poloni," but the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of competent judges as to its qualities as a beverage and its medicinal virtues, precludes the possibility of the idea that I am included among those he designs to impugn. No doubt he feels aggrieved at the depreciation of the sale of doubt he feels aggrieved at the depreciation of the sale of his Schnapps, which is manifest to all, since inhe has been brought into competition with his. Not only have I succeed-ed in competing with him in quality, but the constant and increasing demand for my arrivle, has coabled me to furnish it at a less price than he can, or does—say \$2 in the dezen. And, furthermore, he will soon become entistled that his cau-tion to the citizens of the "Southere and Western States" will avail him nothing as far as I am conserned, for the character of my Schiedian Schnappe is too reil established in those States, to be injured by any such invidious publication.
